-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The preamble recitation sets forth a method for making a seamless bag. However, the step of stitching and shaping is disclosed and claimed which inherently would provide a seam. Thus the term "seamless" is inaccurate when referencing the completed bag.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bihaly (2460674).

Bihaly (2460674) teaches making a seamless bag shaped breast cup substantially as claimed including the steps of inter-lacing yarns into a seamless bag body; b) accommodating the bag body around a mold having a shape of a bag ; c) externally heating the mold accommodated by the bag body by means of steams or other heat sources, such that the bag body

receives heat from an exterior to an interior', d) cooling the heat mold and the bag body by means of cold air from the exterior to the interior, and setting the bag body for forming a seamless bag; and e) completing a seamless bag by stitching and shaping. However, the bag is knit rather than woven as claimed. It would have been obvious at the time the invention was made to provide the knit seamless bag shaped breast cups as woven in order to increase the aesthetic appeal of the brassiere and provide greater strength.

Conclusion

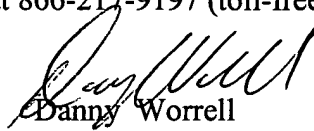

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
